

Revision List

Higher

- Estimating
- Currency conversions
- Two way tables
- Forming and solving equations
- Ratio
- Angles in quadrilaterals
- Equation of a straight line
- Volume of a prism
- Quadratic graphs
- Factorising
- Expanding double brackets
- Indices
- Surds (rationalising denominator)
- Scale drawings
- Area of a trapezium
- Percentages
- Pythagoras
- Angles in polygons
- Averages from grouped frequency tables
- Geometric sequences
- Area and circumference of a circle
- Standard form
- Cubic graphs
- SOHCAHTOA
- Arc length of a sector
- Volume of a cylinder
- Volume of a sphere (formula will be given in test so don't need to learn it off by heart)

Your test will be split into two papers, 1 hour non-calculator and 1 hour calculator. You must remember to bring your scientific calculator with you.
