

YEAR 10 GRAPHICS MOCK EXAM REVISION

Students have a full and free copy of the revision guide on the school shared area:

School shared>Technology>Graphics>Graphics Revision Guide

Topics students should focus their revision around include:

- Symmetry
- Scale
- Single and Two Point Perspective
- Rendering & Shading
- Thick and Thin Lines Techniques
- The work of Robert Sabuda (see revision guide)
- Manufacturing processes of kinetic movements/pop-ups

All of the above have been covered in class over recent months.

Please use both your folders and the revision guide to help you to prepare for the exam.

www.technologystudent.com is also a great resource for revision.
